REGIONAL KNOWLEDGE CENTER
EAST GALILEE

- Surveys Overview of Eastern Galilee Cluster:
 - December 2023: First resident situation survey.
 - April 2024: Education survey among parents.
 - November 2024: Comprehensive resident survey with 2,000 participants.

- Comparative data from these surveys follows:

3

In a survey from **April 2024**, **32%** reported high satisfaction with the current education framework in which their children study.

In the survey of **November 2024**, **41%** of parents report high satisfaction with the current education framework in which their children study.

In the distribution according to evacuation:
54% of the evacuated residents report high satisfaction compared to **36%** in **April 2024**.

4

In a survey conducted in **April 2024**, **49%** of parents reported damage to their children's emotional state.

In a survey conducted in **November 2024**, **62%** of parents reported damage to their children's emotional state.

5

No significant difference was observed in the declaration of return home:

In December **2023** survey:

61% of evacuated residents wanted to return home.

In **November 2024** survey:

67% want to return after normalization.

THANK YOU
